# About Company

## Who we are?

John Sea Foods has developed since its beginning in 2011, to become a leading Sri Lankan exporter of fish and seafood.

Initially specialized in Fresh Tuna and now we offer a wide range of fish, fresh and frozen, exporting all over the globe to our customers, assuring the high quality in our products by our highly qualified staff in seafood industry. Since more than 5 years we are continuously working to improve our products and processes to ensure producing the high quality seafood to the customers.

The approval no of Department of Fisheries & Aquatic Resources is DFAR/FPE/98/50

# our process

## Vision

"To be globally recognized as the only sea food supplier in Sri Lanka"

## Mission

"We will be involved in sustainable fishing while complying to all industry compliances and ethical sourcing in order to satisfy our clients with continuous seafood supply at competitive pricing. We will ensure that all of our stakeholders' demands are met while sticking to our corporate social responsibility."

## Values

- Reliable
- Integrity
- Collaborative
- Empowerment
- Sustainability

# The Profesionalism

John Seafoods is a premier name in the seafood industry, renowned for its unwavering commitment to professionalism and excellence. With a profound legacy spanning years, our company has established itself as a trusted provider of high-quality seafood products to global markets.

## **Professionalism at the Core:**

At John Seafoods, professionalism is not just a word but a guiding principle that influences every facet of our operations. Our team comprises dedicated professionals who bring a wealth of expertise to the table. From sourcing the finest catch from the depths of the ocean to ensuring rigorous quality control standards, our commitment to professionalism shines through in every step of the process.

# Sustainability

**Sustainability and Traceability:** Our commitment to sustainability is evident throughout our operations. We ensure complete traceability of our seafood products, from their origin to the end consumer. By maintaining transparent supply chains and adhering to eco-friendly practices, we contribute to the long-term health of our oceans.

**Global Distribution:** With a well-established distribution network spanning across continents, we efficiently reach customers in various regions. Our logistics expertise ensures that our seafood products reach their destinations in optimal condition, maintaining their freshness and quality.

**Customer-Centric Approach:** We prioritize customer satisfaction by understanding their unique requirements and preferences. Our dedicated customer support team ensures seamless communication, efficient order processing, and timely delivery, creating a positive experience for every client.

## Core Values

Our central principle is centered on sustainability, serving as the guiding force that shapes every choice and endeavor we undertake. Sustainability isn't merely a trendy term in our context; rather, it constitutes the fundamental nature of our identity and mission. We hold a strong conviction that through responsible sourcing, processing, and distribution of seafood, we play a vital role in enhancing the health of our oceans and supporting the livelihoods of the communities that rely upon them.

## Partners

We recognize the significance of collaboration and forming partnerships to fulfill our goal of offering top-tier seafood while maintaining our commitment to sustainability and excellence. Our alliances encompass a wide spectrum of stakeholders who resonate with our principles and play a role in our accomplishments.
